

Waminda means peace and tranquility, which is exactly what you'll find in this charming bed and breakfast just north of Geraldton. A dedicated wildlife sanctuary, Waminda is home to a variety of rescued native animals and endangered plants. Wake up to the sight of kangaroos and emus grazing on the fields and enjoy a free breakfast before stepping into the shoes of a wildlife rescuer and learning how to take care of kangaroos, dingoes or parrots. At night, set up camp under the stars or stay in the eco-friendly caravans supplied by solar panels and windmills. If you're up for adventure, take a short trip to the coast to enjoy snorkeling, diving, surfing or fishing.
